Subject: CES: Vacuum Truck Hoses
Date: Thursday, January 15, 2015 6:49:21 PM

Leroy:

You and I need to discuss the vacuum truck hoses. Also, we need to discuss the pumps. See contract excerpt below. I think that I may have exceeded the billing cost on both items but I am not sure. In any event, on the hoses, I would not be paying replacement cost for the items but rather the depreciated cost on the hose.

Here is the contract requirement associated with equipment that we discussed:

(4) Method of Charging for contractor-owned equipment

(a) The maximum charge for each contractor-owned specific equipment item used on this contract shall not exceed the contractor's average purchase price/average capital value for all pieces of equipment in that category in his inventory. In the event that the average purchase price is reached, a usage rate must be negotiated with the Contracting Officer before any additional costs are incurred. The usage rate is to reimburse the contractor for operating costs such as maintenance, license, insurance, etc.

Thanks
